JAYCEES TO SELECT CANDIDATE

Council Confidence Motion Withdrawn

Penticton Jaycees last night determined to take a more active role in civic affairs after refusing to vote on a motion of confidence in the present mayor and city council.

The decision was that junior chamber members would select and support a candidate for Penticton city council in the civic elections next month. The candidate, who is still to be named, is to be from among the younger population of the city. He or she will be supported by the Jaycees

not as a unit but as individuals. Possible candidates are to be approached by the civic affairs committee.

The discussion was touched off with an informal address by W. A. Rathbun, a former mayor of the city, who appeared at the invitation of the Jaycees' government affairs committee to amplify views he had expressed in a discussion with Jaycee members that afternoon.

Mr. Rathbun declared that the young people of Penticton "are

not as a unit but as individuals. The load in selecting and electing men for our city council."

YOUNG BLOOD NEEDED

"We have no comparatively young men on our council," he added. "Young blood is needed. By getting a younger candidate and working for his election, you won't be playing politics. You'll be playing the man."

Mr. Rathbun cited instances in other communities where mayors had been elected largely through efforts of Jaycees including Don McKay of Calgary, "one of the most outstanding mayors in Canada."

After Mr. Rathbun's address, in which he also emphasized that he had no "personal purpose up to the moment," Len Kennedy, government affairs chairman, moved a motion of confidence "in the present mayor and council." There was a reluctance to vote on this motion from the outset of the discussion even when the motion was amended to one of "confidence in the present civic administration."

Some thought the motion should not cover both mayor and council. Others thought there should be a distinction between persons and performance in the motion.

All the speakers seemed to think that the motion would be defeated if voted upon. Eventually the Jaycees heeded the advice of Mr. Rathbun, not to "censure the present administration but look to something better in the future."

Agreeing that they should be "constructive rather than destructive," the proposers and seconders withdrew both motion and amendment.

Whereupon the resolution for sponsorship of a young candidate, not necessarily from the Jaycee ranks, was passed unanimously.

In his advice to withdraw the confidence motion, Mr. Rathbun observed that "nobody is ever completely satisfied with any administration," and declared that such a resolution "smacks of political skulduggery."

12 Killed in U.S. Tornadoes

ALEXANDRIA, La. (AP) — Late fall tornadoes lashed their twisting fury on three gulf states today with 12 known dead in Louisiana, Mississippi and Texas.

The storms hit hardest at Alexandria, La., where three persons 10-block residential section that were killed last night in the served as the tornado's target. A couple died at Carencro, La., and two men were killed near Crowley, La.

The deaths included Mr. and Mrs. John W. Parker who were found some distance from their house after the twister ripped through Greenwood, Miss., Clay Zeringue, 82, and R. T. Smith, 70, both trapped as their homes fell apart at Groves, Texas, and Mrs. Annebell Peck, 40-year-old Negro

of Orange, Texas. The storms hit communities throughout south central Louisiana with heavy rains and high winds accompanying them.

Several communities reported scores of persons injured. The Boyce community near Alexandria reported at least 15 injured while 81 were hurt in Orange, Tex., where a housing development was smashed.

Strike Ties Up Transportation

PITTSBURGH (AP) — This steel metropolis today struggled along for the 26th straight day without its main mass transportation system as losses from a strike mounted into millions of dollars.

Drawing on experience gained during a similar 35-day strike of trolley and bus operators against the Pittsburgh Railways Company in 1954, residents generally have adjusted quickly to finding other means of getting to work and to school.

But merchants have felt the strike keenly. Many shops have put off buying, or have done as little shopping as possible.

Wholesale Gas Price Reduced

TORONTO (CP) — Imperial Oil Limited today announced a reduction of one cent a gallon in the wholesale price of gasoline in the Maritimes, Quebec and part of Ontario and a half-cent reduction in the rest of Canada.

Wholesale price of premium grades of gasoline remains unchanged.

Guerrilla War in Malaya Near End

KUALA LUMPUR, Malaya (AP) — Arrangements are being made today for new talks between the Malayan Communists and the independent government aimed at ending the guerrilla war, now in its ninth year, an official spokesman said.

Communist Secretary-General Chin Peng made the approach in a letter to Prime Minister Tengku.

Prince Abdul Rahman, the Red leader, implied his readiness to accept the government's surrender offer.

The announcement said Chin Peng requested a meeting with Rahman or his representative to discuss the surrender terms more fully.

The prime minister said he has agreed to a preliminary meeting with the Reds and is awaiting a message from Chin Peng naming his representative and the proposed time and place where contact is to be made.

The Malayan government's latest surrender offer includes the return to the Communist of all former Communist guerrillas and free passages to Red China for all those wishing to leave Malaya.

India Asks for Increased FAO Expenditures

ROME (AP) — Dr. B. R. Sen, Indian director-general of the United Nations Food and Agricultural Organization, asked the 74-country group today for permission to spend one-third more money for a more "dynamic approach" to the world's problems of hunger.

His recommendations for a \$2,000,000-a-year increase in spending was expected to run into sharp opposition from the United States, which shoulders one-third of FAO's total costs.

Canada already has told the FAO general conference here it could not see justification for such a boost in costs.

RCMP COMPLETES SURVEY

Impaired Medical Exams not Reliable

OTTAWA (CP) — RCMP driving tests indicate about six ounces of liquor or five pints of beer may be enough to make impaired drivers of most motorists.

An RCMP report on the testing also showed doctors scored poorly when they tried to determine whether the drivers who participated were impaired.

Fifty men of various ages, weights and driving experience took part in the tests, conducted in 1955, and designed so that any difference in drinking and non-drinking performance could be measured statistically. The driving was spread out over three days, before and after the motorists drank measured quantities of alcoholic beverages.

Results of about 200 medical examinations were compared with

ELSIE MACCLEAVE

MacCleave to Run for City Council Seat

Mrs. Elsie MacCleave, the first woman ever to be elected alderman on Penticton city council, announced today she would run for alderman again this year.

Mrs. MacCleave was first elected an alderman in December 1954. She was re-elected in 1955 but resigned in March in order to run for mayor. She was defeated by present Mayor Charles Oliver.

Mrs. MacCleave told the Herald she was running again this year because she liked the work very much and enjoyed being a member of council.

HERE IS THE IDEAL CHRISTMAS GIFT . . .

Taking full advantage of the fine weather, work on the centennial project at Rotary Park is going ahead. Busy construction forces in preparation for the pouring of cement next week are Jack Mertz, foreman, left, and Danny Fretz. In the background is John Bechell. Work on the project commenced two weeks ago and already the site is taking on a new look. It is planned to have the building completed by March, 1958. Committee members suggest a donation as the ideal Christmas gift.

Hope Rises for Break In UN Arms Deadlock

UNITED NATIONS, N.Y. (CP) — Hope rose today for a break in the disarmament deadlock. Russia and the West were reported to have taken a second—and more favorable—look at India's compromise plan aimed at reviving the stalled arms talks.

NATO Chief to Visit Ottawa

OTTAWA (CP) — Gen. Lauris Norstad, the supreme commander of NATO's land, sea and air forces, is to visit Ottawa next Wednesday and Thursday and will address a closed joint session of the Senate and the Commons.

The defence department said Thursday Gen. Norstad will be met at nearby Uplands Airport by Defence Minister Penikese and the service chiefs of staff. The visit is the normal one paid by all NATO commanders and senior staff officers said all of Gen. Norstad's predecessors, including President Eisenhower when he held the appointment, have addressed a closed meeting of the two houses of Parliament.

Both sides conferred with Indian delegate V. K. Krishna Menon. Menon wants to almost double the size of the disarmament commission to try to get Russia to drop her threat to boycott the 12-nation body and its five-nation subcommittee.

Russia and the West brushed off India's plan two days ago. Informed sources said the western powers, bolstered by the strong UN endorsement Wednesday for their call for new disarmament talks, now feel the Indian proposal might serve as a test of whether Russia really wants to negotiate.

Russia apparently saw the plan as a face-saving way to retreat from her boycott threat and satisfy her demand that the disarmament machinery be expanded.

The UN political committee defeated her proposal that all 82 UN members be included in the arms talks, but some observers figured that demand was a bargaining manoeuvre designed to get a smaller increase.

Verne Ahrens, spokesman for the association, said today the contractors intend to stand by their previous offer.

Accident Victim In Poor Condition

VERNON — Local RCMP will not release the name of the driver of the car that careened off the road, five miles south of Vernon.

Relatives are being notified, as the man is in very serious condition, in Vernon Jubilee Hospital.

Police have not yet finished their investigation into the accident.

Dentists to Study Water Fluoridation

KELOWNA (CP) — Kelowna's experience with fluoridation of domestic water will be studied by a group of dental officials when they visit here Saturday.

Three officials from the Vancouver and District Dental Society along with press and radio representatives from coastal areas will arrive here Saturday morning.

MOSCOW (AP) — The Soviet Union paraded a mighty array of new tactical rockets and guns at its 40th birthday celebration yesterday without unveiling any of the major surprises the world had been led to expect.

B.C. to Be Hit Hard This Winter

OTTAWA (CP) — A qualified government official predicted today unemployment this winter will likely hit at least 750,000, the highest since the end of the second world war.

The previous post-war high was in February 1955, when 619,000 persons were seeking jobs. Estimates earlier this year were that unemployment during the coming year would not go much above 550,000.

Informants attributed the unemployment rise to an increase in the size of the labor force caused partly by immigration and softening of certain segments of the economy.

HARD HIT AREAS

Areas expected to be hardest hit by lack of jobs include British Columbia, Ontario and Quebec and the Maritimes. Least affected by unemployment will likely be the Prairie provinces, where construction activity and mineral development continues at a strong pace.

"Informants said unemployment in the Vancouver area rose earlier than usual and will likely increase more as the winter progresses."

The source said conditions will probably improve by spring in this area, but perhaps not as rapidly or to the extent of the last few years, particularly in lumbering and manufacturing of wood products.

This industry is suffering from a slackening of demand and over production.

The lumbering, pulp and paper saw mill, plywood and mining industries all were reported curbing activity in many parts of Canada.

During September, Canada's jobless total climbed by 20,000 to 194,000. This is about 3.2 per cent of the labor force, almost twice as great as the 1.7 per cent last year.

Sources said unemployment during October climbed by at least 25,000 to 200,000. The labor force in September was estimated at 6,048,000, compared with 6,131,000 one month earlier.

U.K. Rejects Plea to Stop H-Bomb Test

LONDON (AP) — The government today rejected a Japanese request that Britain call off plans for new hydrogen bomb tests in the Pacific, expected to be held within the next few weeks.

The rejection was contained in a note handed Japanese ambassador Kurihiko Nishi at the foreign office.

As he accepted the note, Nishi simultaneously handed over one from his own government requesting that Britain accept responsibility for any damage to Japanese lives and property which might result from the new tests.

U.S. Missile Plan Action Acclaimed

WASHINGTON (AP) — The White House reported "a very gratifying response from over the

country" today to President Eisenhower's speech last night on plans to step up U.S. science-missiles programs.

News dispatches from abroad reported a good reception by officials of allied governments, particularly in regard to Eisenhower's call for more co-operation in western research.

Eisenhower had Senator Styles Bridges to the White House as a breakfast guest, and Bridges told reporters later that they had talked about the missile-satellite program.

EXPENSIVE PLAN
Bridges estimated a speeded-up program will cost an extra \$1,000,000,000 or \$2,000,000,000 a year and said he believes Congress will appropriate whatever is necessary.

The senator quoted Eisenhower as saying that Dr. James R. Killian, named Scientific Chief of Staff to rush development of U.S. weapons, will have "full power and authority" to get the job done.

Killian is president of Massachusetts Institute of Technology. He probably will take over his new job within a week.

In addition to announcing the appointment of Killian, Eisenhower said in his speech that the defence department is giving increased authority to its own missile co-ordinator, William M. H. Ladd.

DEATH RAY

Records of experiments on a mysterious "death" ray conducted by the late Dr. James R. Killian, above, of Toronto, may shed some light on recent car-stopping, light - extinguishing phenomena in the U.S. The widow of Dr. Cotton, world-famous diagnostician, said her husband had experimented with the mysterious "death" ray from 1935 until his death in 1952.

Construction Value Rises

OTTAWA (CP) — Value of building permits issued by Canadian municipalities in September rose 2.8 per cent to \$155,251,000 from \$150,970,000 in the corresponding month last year, the bureau of statistics said today.

Permit values were higher than last year in Nova Scotia, New Brunswick, Ontario, Manitoba and Saskatchewan.

FIND ARCTIC LIFE PREFERABLE TO CITY

These four women have been in civilization for only one week but they'll be happy to go back to their adopted land of the cold, blizzards, and aurora borealis. They are the wives of officers for Canada's northern service who have thousands of square miles of northern wasteland under their supervision. Left to right: Mrs. James Bond, Mrs. Doug Wilkinson, Mrs. Pat Farley and Mrs. Archie Flucke. All of them are in Ottawa with their husbands and even after sampling the pleasures of the city they will be quite content to return to their Eskimo friends in the Arctic.

PROVINCIAL ROUNDUP

3 Youths Sentenced For Brutal Assault

JAIL TERMS LEVIED
VANCOUVER (CP) — Three youths were sentenced to jail terms of from six to 21 months for an attack on two other youths. Magistrate Alexander McDonald said the "brutal, despicable attack" started when one of the assailants thought one of the victims had given them "a dirty look."

BUILDING OPENS NOV. 15
VERNON (CP) — The \$500,000 new federal government building here will be opened Nov. 15. The ground floor of the two-storey structure will be used by the post office.

SPUTNIK SIGHTED
KAMLOOPS (CP) — At least nine persons here reported seeing Sputnik II yesterday. A group

of workers at Kamloops Junction said they saw an object which appeared to be the second Russian satellite for about two minutes from 5:43 a.m. travelling from the southeast.

\$875,000 SCHOOL PLAN
NANAIMO (CP) — A \$875,000 school building and extension plan has been proposed for this area. The money is intended for use in buying sites, building three new schools, and extending existing facilities.

TRUCKING RATE INCREASE
VANCOUVER (CP) — Trucking firms using services of Black Ball Ferries on Howe Sound have applied to the Public Utilities Commission for permission to pass on to their customers a 95-percent

rate increase recently announced by the ferry company. A spokesman for the truck operators said the increase will be felt most in the Powell River area.

\$13,500 SUBSCRIBED
VANCOUVER (CP) — More than \$13,500 has been subscribed towards the cost of promoting British Columbia in this month's Grey Cup parade in Toronto. The provincial government has promised to grant an equal amount.

KILLED IN MISHAP
PRINCE RUPERT (CP) — Robert Ezra Hughes, 51, of Terrace was killed and Adam Milne also of Terrace was severely injured in a highway accident near Smithers. Milne is in hospital at Smithers in serious condition.

Striking Fishermen Reject Wage Offer

VANCOUVER (CP) — Some 700 B.C. herring fishermen have rejected a company offer of a three-percent wage increase coupled with a reduction in the fleet, a company spokesman announced last night.

B.C. herring fishermen went on strike 12 days ago in demanding a seasonal wage of \$2,000 with similar guaranteed wages for tendermen according to classification.

E. L. Harrison, vice-chairman of the Fisheries Association of B.C., said a reduction in operating costs would be essential "if there is to be a herring operation this year." Mr. Harrison gave declining markets as the reason for a reduction.

The companies' plan, while reducing the ton rate to fishermen,

would also reduce the number of boats engaged in the operation and in some cases the number of men per boat. This, the association said, would result in a three-percent wage increase to fishermen.

In turning down the offer, the United Fishermen and Allied Workers' Union objected to a reduction in manpower of the herring fleet.

The Fisheries Association said that during recent years "new labor-saving devices have been added to the boats at company cost to increase their productivity and to materially reduce the amount of work involved."

Police Handle Anti-Red Mob

NEW YORK (AP) — Police twice turned back an unruly mob of anti-Russian pickets last night as they rushed barricades outside the Soviet United Nations delegation headquarters.

Hundreds showed up at the Park Avenue and 68th Street headquarters where a reception was being held to celebrate the 40th anniversary of the Bolshevik revolution.

Police limited the line of march to 300 and kept the rest across the street.

France Plans Nuclear Blast

PARIS (AP) — France is believed to be driving quietly toward the day when she will be in a position to explode some sort of nuclear weapon.

This event would not be a bid to compete with the United States, Britain and Russia in today's nuclear sweepstakes. It likely would be more in the nature of a shot in the arm for fading prestige.

There is nothing official to indicate when France will be in a position to join the atomic powers. But there are a number of significant hints.

If You're TIRED ALL THE TIME

Everybody gets a bit run-down now and then, tired-out, heavy-headed, and maybe bothered by backaches. Perhaps nothing seriously wrong, just a temporary toxic condition caused by excess acids and wastes. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys, and so help restore their normal action of removing excess acids and wastes. Then you feel better, sleep better, work better. Get Dodd's Kidney Pills now. Look for the blue box with the red band at all drugstores. You can depend on Dodd's. — 22

Monetary Policy Study Considered

OTTAWA — (CP) — Finance Minister Fleming says appointment of a royal commission to investigate Canada's monetary policy, "is under consideration and study at all times."

He replied in the Commons to Henry Murphy L-Westmorland who asked whether the government is considering the appointment of such a commission, as suggested in September, 1956, by Premier Fleming of New Brunswick.

No Defence Cut Planned

OTTAWA — (CP) — Prime Minister Diefenbaker said yesterday the government has no intention whatsoever of reducing defence research, expenditures or grants to universities for defence research.

He was replying in the Commons to Claude Ellis, CCF Regina, who cited newspaper reports to the effect such reductions are planned by the government.

Hazen Argue, CCF-Assiniboia, asked whether the government would increase expenditures on scientific research.

Mr. Diefenbaker was non-committal.

BRIDGE TOLL CHANGE

NELSON (CP) — A change in the commuter's toll for the new \$4,500,000 Nelson bridge was announced by Premier Bennett at the bridge opening public banquet yesterday. A weekly pass

it takes a GIANT to keep Canada on the go

There are only 5,500 new car dealers in Canada to serve more than 3,500,000 car-owning people. Yet these comparatively few dealers perform a giant selling job in moving more than 400,000 new cars a year worth well over... \$1,100,000,000!

There are 101 daily newspapers in Canada. Every day they roll out more than 4,000,000 copies to do a herculean job of helping to sell Canada's automobiles from COAST TO COAST.

Car dealers and daily newspapers have much in common. Both are upstanding local

citizens vitally interested in local affairs. Back of almost every civic drive you'll find the local car dealer supporting it with all his weight. And right beside him, with equally ardent support, is his daily newspaper.

Car dealers, like others, have learned that the daily newspaper puts plenty of weight behind an advertiser's sales message, too. That's why newspapers, each year, carry the biggest share of automotive advertising. Use this giant to put the weight behind your advertising.

Use Newspapers . . . the ACTION MEDIUM!

REPLICA OF A RECLINING BUDDHA is displayed by David C. de Martyn, ABC auditor. The miniature, from India, is among a large number of souvenirs which Mr. de Martyn has picked up during sojourns in India and Africa. Equally as interesting are the experiences which the various souvenirs recall.

Auditor Recalls Witch Doctors, Maharajahs

By VIC MISUTKA

An accountant's career has led to a host of exciting places and unusual experiences for David C. de Martyn, 37, of Chicago who is in Pentiction this week on a cross-country stint for Audit Bureau of Circulations.

Born in the United Kingdom, Mr. de Martyn has visited extensively in 15 countries of Asia and Africa as well as North America and recalls experiences ranging from a lavish banquet celebration by an Indian maharajah to voodoo and juju justice among African natives.

Mr. de Martyn is in Pentiction conducting the periodical audit of the Pentiction Herald's circulation records. Starting in Quebec, he has worked his way westward visiting ABC newspapers across the country. He will leave Pentiction this weekend.

His foreign experiences began while serving as field paymaster with the Imperial Forces in Burma during the Japanese campaign in 1941. He then became liaison officer with the Indian Army Corps of Clerks which was followed by a brief return to the United Kingdom.

Next stop was the Gold Coast, now Ghana, in Africa where he served as paymaster with the Royal West African Frontier Force during the 1958 riots. After his army service he stayed in Africa for another six years as travelling auditor for Lever Brothers, trekking throughout the continent by jeep or donkey where possible and by canoe over crocodile-infested waters.

Mr. de Martyn now holds a captain's commission in the Queen's Own Rifles militia. He is to leave Dec. 19 to spend Christmas with his parents in Yorkshire, England.

During his various sojourns in far-off lands he has been particularly fascinated by archeology, architecture, witchcraft and native customs.

DESERTED CITY

In India he recalls making an expedition to the ancient, walled mountain-top city of Fatepur Sikri also known as the Citadel of Akha the Great, Mogul emperor, and the Deserted City. The city is a perfectly preserved link with the past in all its many features though deserted for centuries. It is shunned by the natives because of its weird atmosphere at night arising from a combination of howling jackals, moaning winds, ghostly shadows and eerie moonlight.

Voodoo Effective

In Africa Mr. de Martyn reported he had to carry a pistol for two weeks in Kenya during the Mau Mau terror. He avoided any untoward experiences himself, however.

Commenting on African voodoo, he cited two instances from his own experience where virile, young men died at the hour decreed by the voodoo curse. This is because African natives are so convinced they will die when the medicine man has decreed that they withdraw their will to live and go about settling their affairs in preparation for death at the appointed hour.

Mr. de Martyn also described an instance of juju justice in Africa. Some valuables had been stolen from his safe. After all other attempts to find the culprit had failed, he took a friend's advice and sought the help of the local witch doctor.

The latter personage rounded up five suspects and had them brought together at an appointed spot. Here the witch doctor stuck four forked sticks into the ground in a rectangle about a foot and a half wide with two other sticks laid lengthwise in the forks at the top. Each of the suspects was

Other memorable sights in India were a mountain climb near the Tibetan border with a breathtaking view across Afghanistan and huge rock carvings in a mountain at the Gwalior Estates, so big that one can stand comfortably on a toe of one of the images.

The maharajah's banquet which Mr. de Martyn described as "just fantastic like something out of the Arabian Nights," was during a week when he was a guest of the Gaikwa of Baroda, since deposed. The gala affair was replete with innumerable courses of succulent dishes and a panoply of dazzling dancing girls and other entertainment.

Budding Artists Show Promise

BY K. H.

Heard in a recital at Pentiction as part of a series of concerts from Winnipeg to Victoria, were Patricia Siwek, soprano, and Jack Cohan, pianist, both of Winnipeg.

Sponsored by the Registered Music Teachers on the Young Artists Series, the two were chosen as outstanding in their field.

Miss Siwek, showed that not only does she possess a beautiful voice but that she is also a true, singing actress whose every movement and facial expression illuminates her song. Opening the program with a classical group of fine clarity and finish, she was especially appealing in the

Sentenced To New Haven Institute

Appearing in city police court Thursday, Robert Harold Grover of Pentiction was convicted on a charge of creating a disturbance in a public place and given nine months definite and one year indeterminate in New Haven Correctional Institute at Burnaby.

Magistrate H. J. Jennings handed down the sentence because Grover had broken the terms of an earlier sentence. Grover was given a suspended sentence with orders to keep the peace after being convicted earlier for being in possession of stolen goods on Oct. 12.

required to pass his hands inside the framework from each side clasping them inside from the end.

TEST REVEALS CULPRIT

First two of the suspects performed the test satisfactorily. When the third was about to try it, however, the six sticks suddenly shot off in all directions as if a spring had been released beneath them. The discomfited suspect at once confessed that he had stolen the valuables and told where they were hidden.

On another occasion Mr. de Martyn wanted transportation down the Tano River in Africa. The native boatmen, however, refused to leave the village for two days because the river was sacred to them and one of the villagers had just drowned in it. After considerable haggling Mr. de Martyn was told he could get his transportation only if he sacrificed two bottles of rum and a goat to appease the river god. He accordingly purchased the rum and goat and dumped them in the river.

"I didn't mind," he explained, "I merely put it on my expense account."

OCTOBER BANK CLEARINGS SET NEW HIGH FOR MONTH

Bank clearing figures reached a new all-time high in Pentiction during the month of October. Total value of cheques cleared among the six banks in the city was \$6,327,990.12, about \$450,000 higher than the total for September and about \$880,000 above the previous high in June of this year.

September clearing house total was \$5,877,989.34. Previous high in June was \$5,964,910.18.

Library Project Now Underway

NARAMATA — Work is underway on Naramata's centennial library project. A group of volunteer workers started yesterday to clear brush and trees from the corner lot west of the community hall where the 24 x 28 foot building will be erected.

When this is completed plans are underway to lay the cement slabs, and it is hoped that this can be started next week.

Donald Salting is in charge of the centennial building project and expects to complete it entirely with volunteer labor. The new building will have a group of windows facing west and a small room in the rear designated as a Naramata museum. Electric panel heating will be installed.

Government approval has been received on the project and government funds for the building as well as the centennial celebrations are now in the treasury of the local committee headed by Philip Rounds. Pledges are on hand for the remainder of the \$1,800 that the building will cost.

The centennial building will be known as the Naramata Women's Unit Club Library and will be established under the charter of the old Unit Club of this community.

Special significance is attached to the continued use of this char-

ter as the Naramata Unit Club was the first chartered women's club in British Columbia.

Sarah Blackwell Dies at Age 75

Mrs. John E. Blackwell (Sarah Eleanor), 74, a resident of Pentiction for the past eight years, died in Pentiction General Hospital yesterday.

Born in Ottawa, Mrs. Blackwell resided in Melfort, Sask., for 20 years before coming to Pentiction and was a faithful worker in the Church of the Nazarene. She resided at 702 Pentiction Avenue.

Besides her husband John Ernest, Mrs. Blackwell is survived by a daughter, Mrs. Phyllis McGaw of Dayton, Ohio; four sons, Ivan of Melfort, Allan of Santa Rosa, California, Ernest of Moose Jaw and Gordon of Pentiction; three brothers, Richard Howes of Melfort, Fred Howes of Alberni and Alfred Howes of Tisdale, Sask.; and five grandchildren.

Funeral services will be held Monday afternoon from the Church of the Nazarene, Rev. J. R. Spittal officiating. Burial will be in Lakeview Cemetery. Roselawn Funeral Home is in charge of arrangements.

PASSING PARADE

REMEMBRANCE DAY

Remembrance Day services at Peachland Monday will be held at the cenotaph under auspices of Branch 69, Canadian Legion, Rev. R. L. Norman of Peachland United Church conducting. Veterans are asked to assemble at the municipal hall at 10:15 a.m. to parade to the cenotaph. Guides, Brownies and Scouts will also parade.

OLIVER SERVICES

J. H. Mitchell is in charge of the Remembrance Day services at Oliver, Monday. Fall-in will be at 9:50 a.m. in front of the high school and services in the auditorium will commence at 10 a.m. with the cenotaph services following. Poppy Day is being held tomorrow.

DIRECTOR RESIGNS

Resignation of Will Smith as a director of the Pentiction Junior Chamber of Commerce was accepted with regret at the Jaycees' semi-monthly meeting last

3,780,000 Boxes Apples Stored

A total of 3,781,296 boxes of apples are in storage in the Okanagan according to the Pentiction Junior Chamber of Commerce, which is the Fruit and Vegetable Division of the Federal Department of Agriculture at Kelowna.

Of the overall total, 3,347,668 boxes are in cold storage. Also in storage in the Okanagan are 44,831 boxes of pears, 184,282 hundred-weights of potatoes, 30,137 bushels of onions, 14,676 bushels of carrots, 3,350 bushels of cabbage and 71 crates of celery.

Pentiction totals are 391,462 boxes of apples in cold storage, 89,783 boxes of apples in common storage and 2,896 boxes of pears.

Totals for other district points are: Peachland, 24,035 boxes of apples, cold storage; 77 boxes of pears, Summerland, 155,584 apples, cold storage; 29,475 apples, common; 317 boxes of pears, Naramata, 103,686 apples, cold; 1,070 pears, Keremeos, 129,777 apples, cold; 68,389 apples, common; 4,949 pears, Kaleden, 58,286 apples, cold; 19,812 apples, common; 1,075 pears, Oliver-Osoyoos, 484,631 apples, cold; 189,184 apples, common; 2,064 pears.

PROMENADE

Tomorrow Is Party Time

It's square dance party night in Pentiction this Saturday, Nov. 8, 8 p.m. — high school cafeteria. Time — 8:00 p.m. All square dancers will be welcomed by the Pentiction Promoters who are hosts. Les Boyer, who is so well known here that he needs no introduction, will be emcee. So come and join us for an evening of fun. Refreshments will be served.

Last Saturday there was a gala party at Omak, Washington. Many Pentiction dancers went across the line to attend the Omak Polkaeters' Harvest Mail. Upwards of eighteen squares spent a lively evening of squares and rounds.

Next weekend, Nov. 15, Summerland is putting on a local emceed party, to which all are cordially invited. A sack lunch will be served.

Water System Renewal Set to Go at Naramata

NARAMATA — Heavy equipment is expected in Naramata within the next few days to begin work on a \$102,000 job of rehabilitating this community's irrigation distribution system, to ensure that orchards have a sufficient supply of water, life-blood of the district's basic industry.

Contract for the project has been awarded to Jenkins Brothers Contracting Ltd., of Parksville, whose tender in the amount of \$102,000 was the lowest received from contracting firms in Alberta, Northern and Western B.C. and the Okanagan. Highest tender was in the amount of \$211,000.

The enabling bylaw for the project has been passed by the trustees of the Naramata Irrigation District. Necessary legislation has also been passed by the provincial government uncondition-

ally guaranteeing the district debentures, both as to principal and interest, for an amount of \$240,000.

All pipe in the present system is to be replaced with cement asbestos pipe and 14-inch transite. Stipulations of contract are that local labor will be used and that installation of the new system must be completed by May 1 next year to be in operation for the 1958 irrigation season.

Plans for the renovation project began more than a year ago.

Assistance of the provincial government was sought through Naramata's representative, Premier W. A. C. Bennett. Immediate steps were taken by the government, at no cost to the district, to make an aerial survey of the district and the Water Rights Branch at Victoria put M. L. Zurel, senior hydraulic engineer, in charge.

With this assistance complete plans were drawn up, tenders called and necessary legislation passed.

CITY & DISTRICT

Friday, November 8, 1957 THE PENTITION HERALD 3

Basement Classes In Oliver School

OSOYOOS — Establishment of a third classroom in the basement of the Oliver Primary School has been necessitated by an increase of 78 in student population, the annual meeting of School District 14 ratepayers here was told.

New representatives from the Osoyoos area to the school board are William Dell, Howard Morgan, Bruce Smith, Jack Hulton, Robert Cleave, Frank Pushak and Art Brownjohn who agreed to remain as representatives although he found it necessary to resign as trustee.

School Board Chairman Frank Venables reported there were very few districts on the continent that could compare with District 14 regarding buildings and their maintenance.

Exceptionally high academic standards were also noted which was largely attributed to "the exceptional harmony between teachers, board, maintenance staff and public."

There were only 8.4 percent failures from the district in the provincial examinations and only 7.7 percent from among a total of nearly 500 papers written by Senior Matric students.

Austin Lamb, cafeteria committee, said a dish washer and mixer would be installed in the

Osoyoos school cafeteria immediately.

Inspector of Schools, Mr. Clay, told the meeting that beginning teachers in the district were receiving the highest salary in the province and that this is paying off in high quality of satisfied teachers.

Dominion Sound Company will conduct a survey of the acoustics in the Osoyoos school gymnasium to see whether they can be improved.

PRINCE RUPERT (CP) — Former bank clerk Kenneth Bones was remanded for sentence yesterday when he appeared in city police court charged with armed robbery.

Making Ends Meet in a Most Prosperous Age

From the monthly letter issued by the Royal Bank of Canada comes a note on the absurdity of finding it difficult to make ends meet in this prosperous age. In depression days budgetary difficulties were accepted and understood, but surely, we think, with wages at an all time high we should be living on easy street.

The answer, of course, lies in the fact that although we have reached a new level of living the basic impulses of human nature have not changed.

Our desires for luxuries and extravagances seem to increase more rapidly than our earnings. Our wants grow into needs. When we earn \$100 a month we complain that we are barely breaking even; a few years later, if we are making \$300 a month, we will still have the same complaint. When our table is laden with delicious things we go and cry before Mother Hubbard's cupboard.

Whatever high plateau of living standard we reach, the principle of wise use of money still applies: we need to plan so as to get the best use of every dollar.

While the standard of living in many parts of the world is mere subsistence, the explosion in Canada's industrial development has given her a level of living among the two or three highest in the world.

It has happened so fast that we are not yet accustomed to it. In the past hundred years we have developed into a country where it is possible for men to get enough to eat without having to stumble out of bed at five to milk the cow and crawl back in again after dark. The change has taken place here in a couple of generations, instead of being spread, as in other countries, over centuries.

Between 1926 and 1956 personal income in Canada climbed from \$4,092 million to \$21,706 million, an increase of 430 percent. This meant an addition of more than \$560 per person per year in buying power, even allowing for the higher cost of living. In the same period, cash income from the sale of farm products went up from \$966 million to \$2,662 million.

Yet, in view of all this earning and buying, despite the fact that high-fashion clothing is worn universally by women, that we are the biggest

smokers in the Western world, and that the size of our factory parking lots is used by visitors as a measure of our prosperity—in spite of all this varied evidence of welfare we find difficulty in making ends meet. We are always striving for something new.

Much of the service we have come to take for granted is of a ceremonial character. We feel discomfort in its absence, not because its absence causes us physical distress, but just because we have become accustomed to having it.

We have become spendthrifts in the necessities of life. It has been said that what is thrown out of our kitchens would support a frugal people in almost any country of Europe.

We are, in short, in danger of becoming so carried away by material prosperity, so absorbed in enjoying things, that we lose touch with that sense of the realities our pioneer great-grandfathers knew so well, a sense that made us a well-rounded people. In the words of the cartoon caption: "What does Grandpa know about hardships? He only did without things... he never had to pay for them!"

What we need is to take a balanced attitude toward our needs, desires and income, and to so plan that we get the utmost in real satisfaction. This is not penny-pinching. It does not demand austere living. It does not involve losing face socially. All it means is getting value for every earned dollar. It is a rather exciting venture, much more interesting than spending money at will.

By making savings in everyday household management we can provide for satisfaction of other needs and desires. The struggle in this country is not for subsistence but to attain and maintain certain standards. We desire cultural participation according to the customs of the community where we live and in keeping with the standards we have set up for ourselves.

By budgeting and buying what we can afford rather than what we think we need we could all remove from our shoulders one of this age's greatest burdens.

Complaint of the Farmer

A perennial grievance of the farmer, or of his political spokesmen, is the fact that his produce, when it reaches the shelves of the city retailer, carries a price much higher than the farmer received. Feeling on the subject ranges from mild curiosity about the cause of the price spread to indignant shouting that there ought to be a law.

How to frame such a law so as to do any good to anyone is something that might stagger the wisest jurists. One of the largest Canadian food retailers has annual profits equivalent to less than two cents on each dollar's worth of sales. Since the company's sales are in the neighborhood of a quarter-billion dollars, it does not do badly on its small margin of profit, but it is worth remembering that an annual loss of two cents per sales dollar could put it out of business without any appreciable advantage to the farmers whose produce it handles.

The shouters for a law are prone to forget that there are economic laws already in operation, more inexorable than any a parliament might pass. Between the dozen eggs that the con-

sumer buys and the same eggs laid by the farmer's hen stand hundreds of middlemen, each exacting a toll from the produce. The consumer is not buying merely the eggs. In her purchase she is paying her share of the wages of the truckers, railwaymen, makers of egg-boxes, clerks of wholesalers and retailers who have shared in the task of bridging the gap between the hen's nest and the cashier's desk. She is also paying a share of the income taxes of all these middlemen, which also includes their contributions to old-age pensions, unemployment insurance premiums, baby bonuses and other luxuries of Canadian civilization of which neither she nor the hen has ever dreamed. She is also paying the cost of artificial support prices for such commodities as wheat and butter, although the farmer who originally sold the eggs may not produce either.

A Royal Commission to investigate price spreads might make these points clearer to consumers than they now are. Its cost would also add indirectly to the taxes paid by the buyer of eggs.

Success for a Scientist

Many reasons have been given by famous men for the various successes achieved by them, industry, being a non-drinker, taking chances with investments being but a few. But internationally famous scientist Dr. Zeneb must surely have the most original reasons for fame.

Dr. Zeneb is a hard-working scientist with a world-wide reputation. Year by year he keeps on getting to be a better scientist. Occasionally he gives a paper at Zurich or Cleveland or Rio or London, and on these occasions he has useful, hard arguments with fellows of his craft. It might seem, with so many public appearances in such wide-apart places, Dr. Zeneb would have little time for working in his own laboratory. It turns out, however, that he spends most of his time there, alone, putting away at his trade.

According to Dr. Zeneb, the secret of how he saves time is that when he does make a public appearance, it is only to read a paper, listen to some other papers and argue with his peers. Then he heads fast for home, without doing any committee work or such

things.

"Years ago," he says, "I was put on a committee and found I was expected to attend meetings. This was taking up my time, so I started to do my committee work poorly. After a year or so they left me off that committee. Whenever I've been cornered since then, in any job that took me away from the main thing, I've bumbled it. I'm unreliable, forgetful. Once I got stuck as chairman in New York. Man, was I a weak one, mislaid the agenda, forgot what the meeting was supposed to be about and finally lost all control of the meeting. It happens I'm not much good as a committee man anyway, and I'm certainly not a commanding chairman by nature; but, by cultivating my weaknesses, I've risen to really great heights of ineptitude. Nowadays, nobody asks me to go on committees or to act as chairman or to run things of any kind. It's a great time-saver, so one can do some actual work. Fortunately there is always a good supply of people who don't honestly do much, but who like to be on committees and especially to preside."

HOW MUCH IS PADDING AND HOW MUCH IS PLAYER

UNITED KINGDOM OPINION

Money Getting Tight In Great Britain

By "ONLOOKER"

(Thomson Newspapers London, England Bureau)

It is only now that the effects of the raising of the Bank Rate here are making themselves apparent. It was hoisted to seven per cent, the highest rate since 1920, last month, and things have been fairly quiet since then. But now things are beginning to change.

With Parliament now back after its three-month vacation the Labor Opposition, headed by Harold Wilson, a very sharp politician who was once Chancellor of the Exchequer himself and will be again if Labor gets into power—has been criticizing the uprating. He says that it is a step towards mass unemployment.

The Chancellor of the Exchequer himself, Peter Thorneycroft, says that if the rate had not gone up unemployment on a large scale (and Britain remembers the early 1930s when there was 2,000,000 men idle) would have followed in a matter of months.

Those comments apart—you can pay your money and take your choice—money is getting tighter here. Many Local Authorities in England who have been lending money to people wanting to buy their own houses have clamped down entirely on loans. Others have hoisted the interest rates on their loans to over seven per cent.

Most people in Britain buying houses now do so through building societies, and a few weeks ago there were about two million sighs of relief from mortgaged householders when it was announced that interest rates on their house loans—now standing usually at 6 or 6 1/2 per cent—would not go up.

But the sighs of relief may well be premature. To gain money to lend, the building societies are offering investors 3 1/2 or 4 per cent, tax free.

But now the big finance houses—especially those dealing with credit-sales organizations, are offering up to 8 per cent, to investors. And in a few months it may well be proved that the building societies are losing out in their battle to get money to lend.

ASKING 40,000

Talking of paying for houses over here—a Londoner is twice as worried about the question as the man in Northern Ireland.

That is one of the conclusions to be read into a nation-wide survey just completed by the Ministry of Labor over here, which has enlisted 40,000 people throughout the country and asked them to itemize their spending. They have promised the researchers secrecy and paid them \$2.70 a head.

The findings are interesting. It shows up Britain's heaviest drinkers—the people of the Midlands across the centre of Britain where the bulk of the industry is situated. They spend half as much again as the Londoners.

BIBLE THOUGHT

If thou be the Son of God cast thyself down hence, Luke 4:9. Christ came to this earth for a purpose that would have been defeated had he responded to a silly taunt. He endured for the joy that was held before Him. That joy has been realized.

ELEGANT IRISH

With the money saved on his house the Northern Irishman cuts a dash with his clothes—his is the heaviest spending over here—and next in clothes-consciousness, surprisingly enough, are the Welsh, who are usually thought of as a drab section of the community. Heaviest smokers? The Scots! And what is more—as I have found to my cost—they like their beacy stronger up in the north.

In the Ministry's publication of the report—there are no less than nine mentions made of a woman in the north of England who sent the statistics for her area haywire.

How did she do this? Just by honesty. She treated herself to a fur coat at a cost of more than \$5,000, and religiously put down this expenditure on her form. This meant that although the expenditure on clothes in her area is 13 per cent, her shopping spread showed up the figure to 17 per cent of income. Trust a woman to provide the human element.

GUARDED FILM-MAKER

Passing through London is veteran film-maker Cecil B. DeMille, over here to plug (his own word) his new film "The Ten Commandments." With 70 films behind him at the age of 76, he is heavily guarded by a platoon of publicity men who always explain that he is not as young as he used to be and that he has to guard his health. He has, in fact, a doctor who always travels with him.

Gently, DeMille lambasted film critics when the Critics Circle over here wined and dined him. Too many critics, he said, were too interested in turning out a bright line than in seriously criticizing the film. Too few of them knew about the fundamentals of film-making.

The British critics sat silent as

they listened. Many of them had no comeback. Although the British Press boasts of some of the finest critics in the world—although many of the best are found outside London, in papers like "The Scotsman" or the "Manchester Guardian"—there has been a scramble in recent years to get on the "bright writing" bandwagon. And nowadays more people read the film critics, anyway, for entertainment rather than guidance over here.

UP GUARDS

For my money the favorite story of the week comes from Windsor near London, where the Queen has a castle and where some of the crack Guardsmen are stationed.

It seems that the kids of Windsor built a huge bonfire ready to light on their annual Fireworks Night on November 5 or "Guy Fawkes Night" is an annual bonfire and fireworks celebration held to commemorate the actions of the gent by that name on that date in 1605. Many Englishmen still contend that Fawkes was the only guy that ever entered Parliament with the right idea. His plan was to start at the bottom and raise the level of the whole establishment, but the plot misfired and he was hauled out by the Parliament cellars along with a few barrels of gunpowder before he could get it into operation. For this antic he was hanged.

They woke one morning before the 5th and found the bonfire had been burnt down. The kids thought the Guards did it. So they barracked the famous regiment stationed there. True, the story may have been kept going by a few astute Press photographers, but who cares? Four-foot-nothing urchins facing six-foot-something Guardsmen, the cream of the British Army. This could mean war!

THE BACKWARD GLANCE

From the Files of Penticton Herald

50 YEARS AGO

November, 1907—Nelson Chance was fatally shot at Kere-mos by Charles Hind. The latter was arrested by Const. Ewart and Chief Const. Simmons of Vernon. The shooting took place between Kirby's hotel and the Great Northern station. At the inquest it was shown the bullet wound was not severe enough to occasion death, Chance succumbing from a weak heart... Gordon Harris, jeweler, was advertising a special on oak mantle clocks with an eight-day movement, priced at \$3.50.

40 YEARS AGO

November, 1917—Some packing houses reported a shortage of refrigerator cars, but railway officials denied there was a lack of them. Miss Bertha Grace became the bride of John Campbell Benton, the wedding being held in St. Saviour's Church, the Rev. J. A. Cleland officiating. (Editorial) "Penticton is justifying its claim to be raised to the full status of a customs port instead of being merely an outport."

30 YEARS AGO

November, 1927—Replying to criticism of the Finlay Dam work on Ellis Creek, ex-Reeve C. E. Oliver said he felt the facts did not indicate the dam was either faulty or a failure, and said if the dam had been completed when he wished, in 1925, it would have been all right... Dividends totalling \$13,000 were paid out by the Highland-Bell mine at Beaverdell... Grand Forks—Sigurd H. Palm shot himself with a rifle, and was found to have locked himself in his car before doing so. He had been section foreman at Cookson on the CPR.

10 YEARS AGO

November, 1947—Reeve Robert Lyon told a delegation that included representatives of ratepayers groups and the Board of Trade that so far as he was concerned separation was a "dead issue." A year previous effort had been made to obtain interest from several groups, he said. Only one, Skaha Lake, had responded, and they had turned the idea down.

OTTAWA REPORT

Canadian Oil Hit by Mid-East

By PATRICK NICHOLSON
Special Correspondent to
The Herald

OTTAWA—The increase of nationalism in the Middle East is leading directly and disastrously to a decrease of wealth in Alberta.

The Middle Eastern oil states are rapidly moving towards business arrangements with foreign oil companies, under which they will retain a substantially larger share of the profits accruing from their oil resources. The Parliament of Iran, for example, has recently passed a law governing the Italian oil company operating in that country; in future, the Italians must supply all the capital required for exploration and must lend the nationalized Iranian oil company the money needed to produce the oil. And in spite of these terms, the present fifty-fifty profit-sharing arrangement is being modified so that the Italians will only get 25 per cent of the profits.

Japan is now pushing into the Middle Eastern oil picture, and is willing to negotiate on terms even more favorable to the oil sheiks. For Japan does not want the profits so much as the oil itself.

On top of this economic curtailment, there is the unstable political situation in that part of the world. This is all adding up to make the American oil companies now operating in the Middle East go all out for the greatest profits there in the shortest time. They are boosting production and shipment of oil to the limit, and this is upsetting the normal pattern of oil marketing on this continent.

Alberta's maximum permissible output is at present 780,000 barrels of crude oil per day. But with Middle Eastern oil flooding Alberta's markets in the northwestern United States; and with Middle Eastern oil displacing Venezuelan oil on the Eastern Seaboard of the States, and Venezuelan oil thus being diverted to our eastern refineries, Canadian oil is being driven to the wall.

FOREIGN CONTROL EVIL

It is significant that the Canadian wells thus being restricted and the Middle Eastern wells thus being boosted are both largely under the same U.S. ownership. This is an excellent example of the evils of foreign control of our business, for that foreign control thus manipulates Canadian business to suit its own, rather than Canada's, interest.

In simple figures, Alberta's production of crude oil is likely, by year's end, to be curtailed to a mere 290,000 barrels a day; whereas Alberta could be in a position to sell nearly three times that amount.

The long-term outlook for Alberta oil of course is not merely rosy; it is assured. Ten years from now, those American companies which today spurn it will

be clamoring for it.

OIL NEEDS DOUBLE

In 1956, the U.S.A. will consume oil at the rate of 14 million barrels per day; but domestic production there will only have attained nine million barrels per day even by that time ten years hence.

This raises the vital question: what will happen to the economic stability and even the military security of this whole continent, if political instability or world war should halt those supplies from the Middle East?

Canada of course could and must fill a large portion of that gap. But it would be in the economic interests of Canada and in the military interests of North America that Canada's potential should be encouraged now, rather than be stalled while preference is given to the Middle East sources of oil.

The question of the foreign-enforced slump in the sales of Alberta's oil has been brought to the notice of Prime Minister Di-enbaker on behalf of Alberta. It fits into the pattern of U.S.A. trade policy which is based on selfishness, just like the giveaway and barter wheat disposal program which has hurt our wheat marketing so severely.

Under the new policy of Canadian-American interdependence these harmful economic battles should now be ended. It is a challenge to the Conservative Government to devise a formula which will separate American control of Canadian business from the present "America first" policy in running those businesses.

MOUNTAIN OF OPIUM, HASHISH SEIZED BY EGYPT

A "mountain" of hashish and opium is now in the hands of Egyptian authorities following fast interception work by Egyptian frontier guards in the Suez gulf area. Tipped off that a huge shipment of the illegal drugs was en route by boats across the gulf, the guards took up position, as shown right, behind sand dunes and houses until

the boats landed. Then they closed in, after a one-hour battle they had captured six smugglers and 3,740 pounds of hashish and opium. Left, this is the mountain of drugs now in hands of authorities. If the loot had reached its intended Egyptian market it would have sold for more than \$5,000,000. The retail worth would be astronomical.

WORLD NEWS BRIEFS

ESCAPES POLAND

STOCKHOLM (Reuters) — A Polish air force pilot landed in South Sweden yesterday with a Russian MIG jet fighter. Swedish authorities announced. He is understood to have asked for political asylum.

HUGE HYDRO PROJECT

ST. JOHN'S, Nfld. (CP) — The British Newfoundland Corporation says it is ready to begin development of hydro power at Hamilton Falls, Labrador, on short notice. A. W. Southam, Brinco's managing director, said in a statement the development would be "one of the largest single hydro-electric projects in the world."

1st JAP REACTOR

TOKYO (AP) — Japan will receive technical guidance from Canada in constructing the first Japanese atomic reactor. Kyodo news service reports. Japan is scheduled to start work on the reactor next April.

STRIKE SETTLED

BRANTFORD (CP) — A settlement was reached in the four-day strike of foundry workers at the Cocksfoot Farm Equipment Company plant here. About 760 workers were affected.

INFLUENZA DEATH

HALIFAX (CP) — The 12th death of the current influenza epidemic is reported in Nova Scotia. Cyril L. Dauphinee, president of a trucking firm here, died of complications arising from influenza. He was 63.

UNHAPPY PICTURE

SWANSEA, Wales (Reuters) — Capt. Arthur Webb, master of the 5,603-ton British cargo ship New York City, said in court yesterday that many British people who emigrated to Canada are trying to get home again. "There are many unemployed out there," he said, testifying at the trial of two young Scottish miners charged with stowing away aboard his ship while it was in Canada. "If you have no work in wintertime you starve."

NEW FREIGHT YARD

MONCTON, N.B. (CP) — The CNR will build a new \$17,000,000 freight yard here, vice-president Douglas V. Gonder announces. He said it will be the most modern on the continent.

Ingrid, Roberto Call It Quits

ROME (AP) — Ingrid Bergman and Roberto Rossellini separated today. An announcement by their lawyer said they separated because of incompatibility.

The actress and the film director were married seven years ago. Their married life had been complicated recently by reports from India that connected the Italian director with a pretty Indian script girl.

Rossellini left Rome immediately. Miss Bergman was in Rome, but could not be reached. During the last few days she had been reported suffering from influenza and confined to her Rome apartment.

Rossellini had emphatically denied the reports linking him with the script girl, Sonali Das Gupta.

Provinces Seek Wider Hospital Plan Coverage

OTTAWA (CP) — Increasing provincial pressure for wider coverage in the federal government's proposed national hospital insurance scheme indicates that it will be officially or otherwise a main topic of interest at the federal-provincial conference here later this month. Prime Minister Diefenbaker has

invited at least one provincial leader — Premier Campbell of Manitoba — to raise the question of including mental and TB patients under the plan's coverage at the Ottawa meeting Nov. 25 and 26.

The federal government — and particularly Health Minister Monaghan — have been giving close study to a list of proposals for reconsideration approved at a Toronto meeting of provincial health officials in September.

LETTERS TABLED These include coverage for mental and TB patients under the

proposed scheme and higher federal contributions toward hospital construction.

Manitoba's acceptance of the hospital insurance plan brings to seven the number of provinces which have said they will join. The others are British Columbia, Alberta, Saskatchewan, Ontario, Prince Edward Island and Newfoundland.

However, federal payments to any province for hospital insurance care are not expected to start until at least Jan. 1, 1959. That is the date which Ontario has set for the start of its plan.

Square Dance Party Nite at Summerland

SUMMERLAND — Square dancers in Summerland are planning a party night, Nov. 16. Emcee for the occasion will be a Summerland caller and other callers have been invited to bring their own records. A sack lunch is to be served.

Beach City Promenaders are having a party night, Nov. 9, in the high school cafeteria, Penticton, with Les Boyer, caller. Classes resume in the high school auditorium at West Summerland, Thursday evening.

The employment in the pulp and paper industry provides in the woods runs counter to the normal seasonal pattern. In the late autumn and winter when employment elsewhere is at its lowest ebb, pulp and paper provides work in the forests for more than 200,000 Canadians. Thus the industry helps to stabilize employment.

Governor-General To Dedicate Book Of Remembrance

OTTAWA (CP) — Governor-General Massey will dedicate the Second World War Book of Remembrance in the Parliament Buildings memorial chamber Nov. 11, it was announced today.

The book records the names of 44,891 Canadian men and women who died in the armed services during the Second World War. The dedication ceremony will follow the usual Remembrance Day services at the National Cenotaph, the joint announcement by the defence and veterans affairs departments said.

The memorial chamber, where the First World War Book of

THE PENTICTON HERALD 5
Friday, November 8, 1957

Remembrance is enshrined permanently, is to be the new book's temporary repository. Eventually, the Second World War book is to be placed in the new National Memorial Shrine to be erected at Nepean Point a few hundred yards down the Ottawa River from Parliament Hill.

THE NEW ROCKETS ARE HERE... BRINGING YOU

OLDSmobility

...THE NEW WAY OF GOING PLACES IN THE ROCKET AGE!

FOR 1958... OLDSMOBILE CREATES A NEW CLASS OF CARS!

Introducing New-Matic Ride® (a true air suspension) and a host of exclusive new features for your comfort, safety and convenience

With New-Matic ride, you're really riding on air! Four rugged rubber-nylon air cushions replace steel springs! You always ride on the level, too... adjustment to road and load is automatic!

With New-Matic Ride each wheel is cushioned in air, keeping car on a level plane, regardless of load or road!

In the 1958 Oldsmobile you'll find most everything you've ever wanted in a motorcar—outstanding styling; smart, tasteful design; delightful new features; alert new Rocket Engine performance; supreme comfort; daring new colors and fabrics. And most important of all, you'll find real down-to-earth operating economy! As never before, Oldsmobile for '58 gives you true big-car size, comfort and handling, big-car smartness—combined with budget-car thrift. Once you Rocket-Test the '58 Olds, you'll know for sure, that from its sophisticated Four-Beam Headlamps to its sparkling Twin-Blade rear-fender styling—it's the biggest value in Oldsmobile's 60 history-making years!

*Optional at extra cost.

New, more efficient Rocket Engine gives you outstanding performance. Remarkable improvements in carburetion offer you a marked advance in fuel economy, too! Try it today!

New Safety Sentinel® set at any desired speed, lets you know with light and buzzer when you've reached that speed limit. It mends your speed while you mind the road!

New Safety-Vee Steering Wheel offers new, deep-recessed, twin-spoke design. Horn buttons are handily located on wheel spokes. Standard on Ninety-Eight, Super-88 series.

Dual-Range Power Master® delivers the exact amount of heat or ventilation exactly where and when you want it. Oldsmobile's push-button controls are a miracle of convenience!

New Trans-Portable Radio® serves as your regular car radio, but can also be unlocked and used as a lightweight, 160-hour battery-powered, transistor portable.

• DYNAMIC 88
• SUPER 88
• NINETY-EIGHT

16 Models to Choose From!

Oldsmobile for '58 introduces a panorama of subtle pastel finishes, stunning new fabrics and interior trims... new and exquisite appointments to delight the eye.

DIAMOND JUBILEE CHAPTER, Imperial Order Daughters of the Empire, has made a generous donation in support of Penticton's centennial pavilion project. Shown above are chapter regent,

Mrs. Kenneth Davenport, left, and treasurer, Mrs. W. A. Rathbun, presenting a cheque for \$500 to Howard Patton, chairman of the centennial committee.

Local IODE Chapter Donates \$500 To Centennial Pavilion Project

Penticton's centennial pavilion project received another generous donation when the Diamond Jubilee Chapter, Imperial Order Daughters of the Empire, voted to donate \$500 to the fund at the monthly meeting Tuesday in the Hotel Prince Charles.

The chapter also approved a motion to contribute \$50 to the Student Loan Society, and Mrs. J. B. Feeney was appointed to be the IODE representative with

the group. Other funds will be given in support of the special \$1,000 Centennial Year Bursary being established by the provincial IODE.

Other business at the well-attended meeting conducted by regent Mrs. Kenneth Davenport dealt with a number of proposed projects and regular committee reports.

Following discussions in respect to joining the local Film Council, Mrs. A. F. Cumming was appointed to secure data concerning this matter and report at the December meeting.

Mrs. Feeney, education secretary, read letters of appreciation for the gift of playground equipment sent to the chapter's adopted schools at Cominot and Tulameen. Funds were voted to send the annual Christmas "treats" to the two rural schools.

Mrs. H. H. Whitaker reporting for services at home and abroad informed the meeting that parcels had been sent to Britain and to veterans in Canada and asked permission to increase the usual allowance for the Christmas parcels. This request was granted.

A most gratifying report was submitted on the "Thrifty Shop" by Mrs. C. H. Chaffield. She expressed appreciation for the many generous donations made by the members and especially those from friends of the order. In her report, Mrs. Chaffield appealed for donations of knitted mitts to be sold at the shop.

Mrs. H. E. Chalmers, IODE convenor for the annual TB Christmas Seals program, reported

that more than 6,000 appeal letters with the seals enclosed were dispatched to various centres throughout the South Okanagan. She expressed appreciation to the many members who had assisted with this project.

A committee composed of Mrs. Whitaker and Mrs. Earl Swanson was set up to be in charge of making quilts, layettes and knitted garments which will be distributed through the Provincial IODE to distressed areas in Korea, Europe and other centres abroad.

Regent Mrs. Davenport will place the IODE wreath at the annual Remembrance Day services at the Cenotaph on Monday.

A short talk on Civil Defence was given by Mrs. Elise MacCleave who is leaving this weekend for a three-week course at Ampror.

Prior to adjournment, Mrs. Davenport welcomed several new members to the chapter: Mrs. Earl Swanson, Mrs. P. W. Higgins, Mrs. Gordon Shickle, Mrs. John Erickson, Miss Muriel Osborne, Mrs. Carl Nerby and Mrs. John Carew-Gibson.

The next meeting of the chapter will be the annual Christmas party to be held December 3 at the Hotel Prince Charles. Colorful films will be shown by Mrs. Cumming.

The meeting closed with the reading by Mrs. Davenport of a very excellent address presented by Richard L. Thomas of London, England, at the recent semi-annual meeting of the National IODE held at New Westminster.

AROUND TOWN

West Bench Auxiliary Will Hold Bake Sale

A "Bake Sale" tomorrow afternoon in the Super-Valu will be the first fund-raising project to be sponsored by the recently organized Women's Auxiliary to the West Bench School.

Proceeds from the sale, which is scheduled to start at 2 p.m., are designated for the purchase of a Gieseler machine for the new school.

Objectives of the newly organized women's group are to assist with school and community projects in general. Officers of the auxiliary are Mrs. Ray Potter, president; Mrs. Thomas Hagen, secretary; and Mrs. Leonard Charrand, treasurer.

Miss Yvonne Cousins, daughter of Mr. and Mrs. Walter Cousins, left Monday for Vancouver where she has been transferred to main office of the Traders Finance Corporation Ltd., on Seymour street.

Mrs. R. G. Laidman was elected to succeed Mrs. H. J. Cossentine as president of the Poplar Grove Women's Auxiliary to St.

Saviour's Anglican Church at the annual meeting Wednesday evening at the home of Mrs. W. A. Roadhouse.

Mrs. Cossentine will serve as vice-president for the ensuing term of office. Mrs. Roadhouse will assume the duties of WA secretary as well as those of "Thank-offering" secretary; Mrs. E. R. Cossentine, was chosen treasurer and Mrs. John Coe, Dorcas secretary.

Business of the meeting dealt with reports, approval of annual donations and plans for the forthcoming bazaar on November 16 in St. Saviour's parish hall. The Poplar Grove WA will sponsor a booth of garden produce, home cooking and miscellaneous articles in the annual parish fund raising project.

Mr. and Mrs. G. J. Winter are making a two week holiday visit in the Cariboo.

Mr. and Mrs. H. H. Pardey have come from Manitoba to take up residence in this city.

Double-Duty Glassware Has a Variety of Uses

By ELEANOR ROSS

It's so exciting to go shopping for glassware. Shapes and styles are new and different and so attractive. The type we prefer and can afford is fine American machine-made glassware.

USE YOUR GLASSWARE

The thing to do is to make the fullest use of glassware, instead of keeping decorative pieces on the shelf. So many places have multiple uses. It's fun to have them do double duty.

One of the best examples that comes to mind is seen in a new punch bowl. This piece plays a handsome role for serving punch at parties. Its size and shape also make it most practical and ideal for beautiful leaf and flower arrangements. The newest in such punch bowls is one of traditional milk glass, something old that is again very new.

There is scarcely a glass piece that doesn't suggest various uses in addition to the function for which it was originally planned.

A handsome glass creamer and sugar bowl, for example, could also do duty as charming receptacles for garden flowers, such as tiny roses and daisies. That sandwich platter or glass dinner plate could become a letter or card tray. A pretty fruit juice glass is prepared to take over as a cigarette container.

MANY POSSIBILITIES

The possibilities are many and suggest themselves as one surveys the glassware in the china cabinet.

Give that glassware good care, no matter for what purpose it is

used. See that it is shining bright and it will add a gleam of beauty to your household.

High School PTA Will Sponsor Sale Of Home Cooking

The Penticton Junior-Senior High School Parent-Teacher Association will hold a sale of home cooking tomorrow afternoon at 2 p.m. in Simpsons-Sears Ltd., Main Street.

Parents of grade seven students are donating the various foods for the sale. The committee in charge of arrangements is composed of Mrs. E. Horsnell, Irvin Chambers and Mrs. John Bowen-Collhurst.

Proceeds will be applied to the Student Loan Fund.

Meat Muffins are Served on Spaghetti

There's a new look to the old stand-by, spaghetti and meatballs, and a new relieved look to the cook who's in on the secret. It's no more time spent in pot-watching and pot-stirring. Instead, the ground beef rolls into muffin-tin cups, and out of the oven, fifteen minutes later. The flavor of Meat Muffins, served (for a change) on a bed of buttered noodles, is just as good, maybe even better.

The ground beef, plus the other ingredients, can be mixed with a few tosses of a fork, then rolled into balls. If the meat is cold, it will need less manipulating, and if the hands are occasionally wet in cold water while rolling, then so much the better.

So much the better that it will be "Meat Muffins" in the oven and on the table, frequently from now on.

15 MINUTE MEAT MUFFINS

1 pound ground beef

1 teaspoon monosodium glutamate

1 teaspoon salt

2 tablespoons minced onion

1 can condensed vegetable soup

1/2 cup fine dry bread crumbs

Break up meat with fork in mixing bowl. Sprinkle monosodium glutamate and salt over surface of meat; toss gently to distribute seasonings. Add onion, undiluted vegetable soup and fine dry bread crumbs; mix lightly.

Fill 2-inch muffin pans with mixture. (Put hot water in any unfilled muffin cups). Bake in a hot oven, (450 degrees F.) 12 to 15 minutes. Serve with noodles.

Yield: 6 servings.

NOODLES WITH CROUTONS AND POPPY SEEDS

1 cup 1/2-inch bread cubes

Salad oil

1 package (8-ounces) fine noodles

2 tablespoons melted butter or margarine

1 tablespoon poppy seeds

Salt, pepper, monosodium glutamate

Brown bread cubes in hot salad oil, stirring with fork until crisp. Drain on paper toweling. Cook noodles as directed on package. Add melted butter, croutons and poppy seeds; sprinkle with salt, pepper, and Accent. Toss with fork to mix thoroughly.

Miss Carol Beames Honored at Shower

NARAMATA — Many friends from Penticton were among those attending the pretty miscellaneous shower held Tuesday evening in the community hall to honor Miss Carol Beames, whose marriage to Harry Robb will take place in St. Peter's Anglican Church on Saturday.

The popular bride-to-be who is the daughter of Rev. and Mrs. W. Beames, was the recipient of many lovely gifts from the 60 guests present. She also received a corsage on behalf of the guests with the presentation being made by Mrs. Richard Knight of Penticton.

A brightly decorated basket contained the gifts which were presented by the Misses Judy Littlejohn and Elita Suckling. She was assisted in opening the packages by the Misses Bill Wiseman and Margaret Crane.

A short musical program with solo selections by Mrs. Arnold Pedersen was followed by the serving of delicious refreshments.

Shower arrangements were under the supervision of Mrs. Paul Wiseman, Mrs. A. L. Day, Mrs. Donald Turner, Mrs. Eldon Baker and Mrs. Stuart Terry.

OPEN FOR YOUR INSPECTION

EASY LINES

Ever since the middy came in again, designers here have been more becoming than the Paris houses endorse. Our own Mollie Parnes does a relaxing-to-look-at-and-to-wear number in black basket-weave wool. The dress, a two-piece, has black satin highlights at the neck and hipline of the back-buttoned blouse. The skirt is straight and slim. It adds up to a good afternoon frock to be donned for wear from luncheon on.

KEEP IN TRIM

Dieter's Temperament Should Be Considered

By IDA JEAN KAIN

With many overweights, dieting is an old story. If you've been dieting, after a fashion, for so long that it's stale, you will appreciate how the writer of this letter feels.

"Is it all-right to eat the foods I like best if I do not exceed my reducing calorie quota? Or does a diet have to be all low calorie foods? I seem to be able to manage by eating limited amounts of the foods I enjoy."

You should enjoy your diet. Many dieters can include some of their favorite foods within reducing calorie limits. However, for the "all or nothing type" taking such liberties would be ruinous. Take your temperament into account and diet accordingly.

PRESERVERS

A colorful and tasty salad can be made with coarsely grated carrots mixed with raisins and crushed pineapple, tossed with mayonnaise and served on crisp greens. The mixture can also be molded in a lemon or gelatin base to make a delicious and colorful salad.

From the letters, it is apparent that it makes for success in reducing to devise a system that keeps you from feeling deprived. One happy homemaker who took off 25 pounds allowed herself a special treat after each five pounds loss. Another made it part of her reducing regime to have a favorite dessert on Sunday. Any system that makes a treat a reward rather than a diet-breaker is all to the good.

Of course, whatever your reducing plan, make sure you do not shortchange yourself nutritionally. The essential protective foods must be the backbone of the menu. But let's take that from a fresh approach. It is one of the happy facts that in order to cover the daily nutritional needs, a reducing diet must include a variety of good food. Right off that takes away the monotony.

There is increasing emphasis on the importance of a protein food with each meal. Fine, that fits right in with reducing and good meal planning. The point is, roasts, broiled meats, fish or fowl or a fluffy omelet have always been good eating. These foods are the backbone of any meal, reducing or otherwise. The balance of the menu is made up of succulent vegetables and crisp salads, a variety of fruits and the necessary dairy products. To curb calories, all fats must be restricted.

Nutrition know-how applied to menu planning does allow you to include some of your favorite foods in moderate servings while still maintaining a desirable weight. The less deprived you feel, the happier you will be to stay within your reducing calorie limits.

LET'S EAT

Steamed Fig Pudding Is a Glamour Dessert

"Here is your favorite confection, Madame, a package of this year's tenderized figs." The Chef bowed and handed me the glamorous foil-covered package.

MOISTURE RETAINED

"These figs are double-wrapped, Madame, to retain their moist tenderness."

"How wonderful they are for dessert, Chef, with a few cracked choice nuts. When diced, I also find them a delightful addition to an orange or mixed fruit cup. When stuffed with cream cheese, these tender figs are a real surprise tidbit."

"One of the most delicious desserts I have ever tasted," beamed the Chef, "is my latest creation, a light creamed fig pudding with orange sauce."

Unfold and garnish with fluted orange slices and whole figs, previously simmered in white corn syrup to glaze and sweeten. Serve pudding warm with hard sauce and/or orange sauce. Serves 10 to 12.

Any unused portion can be steamed in double-boiler and served several days later, or wrap-seal it and freeze up to a month.

TOMORROW'S DINNER

FOR GUESTS
Shrimp-Green Pea Saladettes
Mixed Grill:
(Sliced Flank Steak, Sausages, Potato Puffs and Broiled Tomatoes)
Steamed Fig Pudding
Orange Sauce
Coffee or Tea Milk
All measurements are level

SLICE FIG PUDDING for serving at the table so guests can see how pretty it looks garnished with slices of orange and whole figs.

Debut! Steamed Fig Pudding

Snip the stems from 1 1/2 c. soft, dried figs. Coarsely chop figs.

Chop 1 c. walnut meats. Cream together 3/4 c. shortening and 1 c. packed brown sugar. Beat in 2 unbeaten eggs, one at a time.

Sift 2 1/2 c. already-sifted enriched flour with 1 tsp. salt, 1 tsp. baking soda, 2 tsp. baking powder and 1 tsp. cinnamon. Blend into creamed mixture alternately with 1 c. milk.

Then, blend in 1 tsp. pure vanilla extract and 1 tsp. crushed fine-grated orange rind. Fold in the chopped figs and the walnuts. Turn into an oiled 2 qt. mold. Cover with a lid or aluminum foil.

Place on a rack in a deep pot. Add boiling water to half depth of mold. Steam continuously 2 hrs. If necessary, add more boiling water.

Shrimp-Green Pea Saladettes:

Drain and rinse the contents 1 (7 oz.) can small shrimp; cut in halves.

In a deep bowl, mix together 1 1/2 tsp. lemon juice, 1/2 tsp. tomato ketchup, 1 tsp. table mustard, 2 tsp. salad oil, 1 tsp. liquid from canned peas, 1/2 tsp. salt and 1/4 tsp. ground black pepper. Add the shrimp. Add 1 1/2 c. cooked or canned green peas, 3 c. shredded firm lettuce, 2 minced scallions and 1/2 c. of small-cut celery.

Toss together with 2 forks until mixed. Chill. Serves 6.

FLANK STEAK TRICK OF THE CHEF

Quick-broil flank steak in one piece until brown on both sides. Brush with vegetable oil; dust with seasoned salt. Bake 8 to 10 min. in moderate oven, 375° F. Serve cut in very thin diagonal slices to make tender.

KEREMEOS LOCALS

Legion L.A. Sponsors Tag Day for CNIB

KEREMEOS — The Ladies' Auxiliary to Branch 192, Canadian Legion, has reported that as the result of the tag day in aid of the CNIB, the sum of \$68.50 was collected.

At the regular monthly meeting this week, arrangements were made for the sale of Poppies on November 9. Members of the auxiliary to be assisted by Keremeos Girl Guides.

A second gift of ten dollars was made to Boys' and Girls' Town. Mrs. D. Fraser submitted a full

report of the zone council meeting. The December meeting will be held at the home of Mrs. J. H. East.

Arriving home from a six month's visit in Great Britain and the Continent this week are Miss J. Dugdale, Miss E. P. Nelson and Miss Maxine Cordelle.

Mr. and Mrs. Kenneth Jorde and family recently arrived from the Yukon to spend the winter here.

NARAMATA NEWS

Play, Concert Planned By Women's Institute

The Naramata Women's Institute will sponsor a one-act play and a concert on December 20 in the community hall. Plans concerning the event were discussed at the November meeting on Monday at the home of Mrs. D. M. Nourse.

Following adjournment of the meeting a farewell party was held to honor Mrs. J. A. Drought, a past president, who is leaving Naramata to take up residence at the coast.

The next meeting of the WI will be held at the home of Mrs. Jens Pedersen.

An invitation to join the institute and participate in its many activities is extended to any resident of the community. Additional information may be obtained in this respect from Mrs. Philip Rounds.

Mr. and Mrs. A. E. Drought were here from Westbank to spend the weekend with their son and daughter-in-law, Mr. and Mrs. J. A. Drought and family.

Mr. and Mrs. Frank Dicken and children have returned after visiting for the past two weeks at coastal centres.

Mrs. T. H. Hurlburt, a member

Stew Is An Easy Dish To Prepare

Just the combining of several vegetables with meat in a stew means a mutual strengthening of their varied food values, so the blending of their different flavors simmers into an appetizing sum that's a flavor symphony with depth and excitement. Happily, a stew is one of the easiest main dishes to prepare and to serve, and there are so many interesting variations on the basic stew theme that stew once a week is a practical as well as success-netting habit for clever cooks.

FRESH VEGETABLE AND CHICKEN STEW

4 to 5 pounds fricassee chicken
2 to 3 tablespoons shortening
2 cups hot water
1 tablespoon salt
1/4 teaspoon ground black pepper
12 small white onions
1 cup sliced fresh carrots
1 cup fresh peas, lima beans or snap beans
1 cup diced potatoes
1/3 cup flour
1/2 cup water
Few drops kitchen bouquet (optional)

Cut chicken into serving size pieces and brown on all sides in hot shortening. Place in a Dutch oven or saucepan with next 3 ingredients. Cover and cook one hour or until chicken is tender. Add vegetables about 30 minutes before cooking time is up. Combine flour with the 1/2 cup water and stir into stew. Cook until medium thickness. If desired, add a few drops of kitchen bouquet to give the sauce a rich brown color. Yield: 6 servings.

FRESH VEGETABLE FRICASSEE OF VEAL

Cut veal into 1-inch cubes.

Brown on all sides in just as shortening. In a Dutch oven or heavy saucepan. Add hot water and salt. Cover and cook slowly until meat is tender, about 1 1/2 hours. Add vegetables with black pepper about 30 minutes before cooking time is up. Mix flour with water and cook until desired thickness. Serve hot. Yield: 6 servings.

Chastised Chiefs Meet Vees Tonight

JOHNNY UTENDALE, hustling young left winger, has been a big factor in the Vees' vastly-improved showing of late. Utendale, who played junior hockey with the Edmonton Oil Kings, and attended the Detroit Red Wings camp, will be in action tonight when the Vees meet the Kamloops Chiefs in a battle for second place.

Second Place in OSHL at Stake in Tonight's Clash

Two conflicting coaching philosophies will be tested tonight when Kenny MacKenzie's Kamloops Chiefs meet Hal Tarala's surging Vees.

After dropping their first three games, the Vees have come on strongly to win four of their last six games and now trail the second-place Chiefs by only two points.

Chiefs, on the other hand, started like world-beaters and then went into a tailspin.

Following a recent game, MacKenzie slapped a \$10 fine on each member of the team.

Despite the Vees' early season slump, Tarala held no fines. "If the boys don't want to play hockey for you, there is no use fining them," he said. "We had our trouble earlier in the season but they weren't caused by the players not trying. And that's the only excuse for fining a player. You can't fine him for making mistakes."

Vees, who have now shaken their slump, could move into second place by sweeping the two-game weekend series with the

Chiefs. The same two clubs meet again Saturday in Kamloops.

Tarala, who is still out with an injured wrist, will go with the same lineup that defeated Vernon 7-4 here Tuesday night.

Rookie defenceman Lowell Dykstra, who turned in a stand-out performance Tuesday, will again be paired with veteran rearguard Jack Taggart. The other defence duo will be comprised of Kev Conway and Rhea Tounin.

Bathgate will centre Bob Harper and Walt Peachosh on one forward line, while Clare Wakshinski will be flanked by Dave Wall and Johnny Utendale on another. The third attacking unit will be made up of Don Slater at centre and Eddie Diachuk on left wing with Al Lloyd and Jackie Wilson alternating at right wing.

George Wood, who held the Vees together in the early going Tuesday with several brilliant saves, will be in the nets.

Game time is 8 p.m. and you can bet there are a couple of Chiefs who won't have to be told to "go get those Vees."

ROCK 'N BROOM GAME UNDER WAY

Peter Gibson displays early season curling form as the mixed bonspiel, heralding the opening of the 1957-58 curling season, gets underway at the Granite Club. Play in the bonspiel continues through the weekend and will wind-up next week.

Regular curling at the curling club gets started Nov. 12. Memberships in the curling club are still available and club members are looking for prospective curlers.

BOMBERS HEAVY FAVORITES

Stamps Face Tough Task in Semi-Final

WINNIPEG (CP) — Calgary Stampede will have to stop the running attack of Winnipeg Blue Bombers if they hope to win their two-game, total-point Western Interprovincial Football Union semi-final.

With four lopsided league victories over Stamps this year, Bombers will go into the opening game here Saturday night 8 p.m. CST as favorites.

While Calgary coach Otis Douglas says, "We're not going to try to hold Winnipeg to a small margin, we're going after a victory," he can't help but lose sleep gazing at the regular schedule statistics against Bombers.

In the four games, Bombers outscored Stamps 131-40, outrushed them 1,260 yards to 502, and outpassed them 650 yards to 589.

But maybe statistics don't bother Douglas and his players. Even Frank Pop Ivy, coach of the league-winning Edmonton Eskimos, who meet the winner in the western final, won't hazard a guess as to who his opponent will be.

ANYTHING POSSIBLE

"In two games, why, anything can happen," Ivy said. "On past record, well, certainly Winnipeg would have to be favored. But upsets do happen."

Bombers' offence has been hurt by the loss of halfback Leo Lewis, who averaged 6.8 yards a carry during the regular season — second only to Esks' brilliant Jackie Parker. Lewis, who suffered torn muscles in the last league game, also was the WIFU's leader on runbacks or kick-offs.

But coach Bud Grant believes his boys can come through. He plans to use Canadian Ron Latourle at Lewis' left half spot, with Dennis Mendyk at right half and scoring champion Gerry James and Charlie Shepard at fullbacks. All-Star Kenny Ploen will quarter the club, although homebrew Barry Roseborough may see some action behind the centre and Ploen go at left half, if things don't jell.

Bomber players should be up for the game as many will want to prove to coach Grant they rate an invitation to return next year.

PLAY AGAIN MONDAY

Stamps take off today for Winnipeg. The two clubs then return to Calgary for the second game Monday afternoon, the Remembrance Day holiday.

Filchok Fired By Roughriders

REGINA (CP)—The last-place Saskatchewan Roughriders of the Western Interprovincial Football Union today announced they have fired Frank Filchok, their coach since 1953.

The club's statement said: "As a result of the unsuccessful showing of the club in the WIFU in 1957, we feel that certain changes will be necessary at this time in order to prepare for an extensive rebuilding program."

While the club considers that coach Frank Filchok has done a good job in the past, it now is felt, with reluctance, that his contract should not be renewed. Word of Filchok's dismissal leaked out in Winnipeg Thursday night but officials of the Roughriders said they had no comment on the report. Filchok said if the club had no comment, he had none.

He is looking for another football job, though not necessarily as a head coach. His references include four consecutive years in the playoffs with Saskatchewan and the WIFU championship for Edmonton Eskimos in 1952, his first season as a head coach.

This year the Riders lost several key players through injuries and never hit their stride. They won only three games and managed but one tie in 16 starts, their worst season since Filchok took the coaching job from Glen Dobbs in 1953.

The Crucible, Pa., native came west from Montreal in 1951 as quarterback and assistant coach of the Edmonton Eskimos and moved to the head coaching position the next year, replacing Annis Stukus.

HAD NFL TROUBLE A veteran of pre-war and post-war National Football League play with Washington Redskins and New York Giants, he arrived in Canada in 1947 after the NFL threw him out of the league for failing to report a bribe. He was re-instated several years later but continued in the Canadian game. Filchok had two good years with Hamilton Tigers, then joined Montreal Alouettes for their first Grey Cup in 1949.

It was this season that earned him the nickname "Flingin' Frankie" as he quarterbacked and passed the AIs to the Dominion championship over Calgary Stampeders, the defending champions, a feat which also won him the selection as Canada's outstanding athlete.

LOOKING FOR A JOB However, he told a Winnipeg sports writer he would encourage anyone to apply for the Roughrider position and said he would be looking for another football job, though not necessarily as a head coach.

George Samos Top Keeler George Samos, bowling in the 10-Pin League, walked off with individual honors in three games last night when he rolled a 294 high single and a 501 triple. High team marks in the 10-Pin League went to Investors Syndicate with a 619 single and Canadian Freightways with an 1807 triple.

In the Thursday mixed league, Addie Fraser rolled the high single, 221 and Lil McLeod the high triple, 501.

For the men, Gordon Meakin shone, rolling a 279 high single and a 724 triple. Team honors went to High Flyers with a 906 single and a 2634 single.

WARRIORS EDGED, 3-1

Flyers Trip Front-Runners

WINNIPEG (CP) — Edmonton Flyers moved to within one point of the front-running Winnipeg Warriors, defeating Warriors 3-1 in a lack-lustre Prairie division Western Hockey League game Thursday night before 4,523 fans.

Len Lunde, Gord Hannigan and Chuck Holmes handled Flyers' scoring and Pete Kapusta scored the lone Warrior goal. Edmonton led 1-0 at the end of the first period and 3-1 after 40 minutes. The third period was scoreless.

Throughout the game Flyers kept Winnipeg off balance with a close-checking defence. Warriors couldn't get untracked and passed and shot wildly. Only in the last ten minutes did they manage to give the largest crowd of the season something to cheer about, and then Dennis Riggin in Edmonton nets came up with three fine saves.

It was the third loss in as many

starts to Edmonton for Winnipeg. Lunde scored the lone first-period goal, firing Metro Prystai's passout past Ray Mikulan from 20 feet out. Hannigan made it 2-0 in the second, bating in his own rebound. Kapusta cut the lead to 2-1 on a pretty three-way play with Art Stratton and Gordie Redahl but the marker was nullified by Chuck Holmes goal midway through the middle period.

ROUGH NIGHT

It was a rough night for referee Vern Bueffey who twice was knocked backwards over the boards into the runway between the ice and the fans. Each time he was sent flying during a scramble as he tried to duck out of the way.

The tight-checking game threatened to break into a donnybrook in the last period and Jack Hendrickson, Howie Glover, George Ford and Gerry Melnyk received minors as a result of two jamming sessions mid-way through the period.

EDMONTON 3, WINNIPEG 1
First period — 1. Edmonton, Lunde (Prystai) 17:15. Penalties Hendrickson, Douglas 2.
Second period — 2. Edmonton, Hannigan (Roggeveen, Melnyk) 2:27. 4. Winnipeg, Kapusta (Redahl, Stratton) 7:56. 4. Edmonton, Holmes (Hannigan, Melnyk) 11:58. Penalties Lewicki.
Third period. Scoring none. Penalties, Hendrickson, Glover, Melnyk, Ford. Bloop.

Edmonton 6 5 6-10
Winnipeg 1 0 1-10
Mikulan 8 11 5-24

BANTAM HOCKEY SCHEDULE

Once-Proud Detroit Hits All-Time Low

FISTIC UPSET

Randy Sandy of New York lands a left to the jaw of Gene "Ace" Armstrong, right, of Elizabeth, N.J., during their 10-round bout at St. Nicholas arena, New York. Armstrong, 25, won an upset decision in the middleweight bout, for his 12th straight victory. Sandy, veteran middleweight contender, was Armstrong's first "name" opponent but proved to be an easy victim.

Bud Grant Gets Two-Year Pact

WINNIPEG (CP)—Harry (Bud) Grant, freshman coach of Winnipeg Blue Bombers, has been signed to a new two-year contract to handle the Western Interprovincial Football Union club through 1958 and 1959.

Under the club's policy, terms of the contract were not released, but Bomber president J. T. Russell said today the salary was an increase over Grant's 1957 one-year contract.

Grant, star end with Bombers from 1953 to 1956 and formerly with Philadelphia Eagles, of the National Football League, and University of Minnesota, took over the coaching job here early this year from Al Sherman, released after guiding the team for three seasons.

HOCKEY IMMORTAL

Roy Worters, Former NHL Great, Dies at Age of 57

TORONTO (CP)—Roy Worters, 57, former National Hockey League goalie who was "small in stature but a giant in reputation," died Thursday at his home after a lengthy illness.

Worters, a hotel operator in recent years, was one of the smallest goalies in big league hockey at five feet, three inches. In nine seasons with New York Americans he became the first goalie to win both the Hart and Vezina trophies and twice was named to the league's second all-star team.

The awards climaxed a hard drive to the top, during which Worters constantly had to battle critics of his size and at one time in 1923 almost gave up all ideas of a hockey career.

GOOD AVERAGE

He won the Hart Trophy as the most valuable player in 1928-29 when Americans finished second behind Montreal Canadiens in the then 10-team, two-division NHL. Worters allowed but 53 goals in 44 games, second to Montreal's George Hainsworth. New York Rangers eliminated Americans in the first round of the Stanley Cup playoffs 1-0 in a two-game, total-goal series, the goal coming in overtime of the second game.

He won the Vezina as the goalie with the least goals against in 1930-31. Worters allowed 74 goals in 44 games but his mates could score only 76 — lowest in the league — as Americans finished fourth.

Born in Toronto's "Cabbage-town" district, Worters first achieved prominence with the Junior Toronto Parkdale Canoe Club, which he joined in 1917. They won the Memorial Cup as Canadian junior champions in 1920. A teammate was Lionel Conacher, voted Canada's outstanding athlete of the half-century in 1950 Canadian Press poll.

ALMOST QUIT

After a year of senior hockey in Timmins, he played with Toronto Argonauts of the Senior Ontario Hockey Association in 1922. The following season Worters almost quit hockey. But Conacher persuaded him to go along to Pittsburgh Yellow Jackets of the American Amateur Hockey League. He stayed with them when they moved into the NHL in 1925 as the Pirates and was traded to Americans in 1928.

Americans never managed to win in first place or win a Stan-

Leafs Register Win Over Bruins

By The Canadian Press

Montreal Canadiens ran rough-shod over the crippled Detroit Red Wings Thursday night, breezing to a 6-0 win on Montreal ice and helping goalie Jacques Plante to a shutout in his return to the game after a siege of illness.

The other National Hockey League game was played at Boston where Billy Harris' second goal with less than four minutes to play gave Toronto Maple Leafs a 5-3 win over the Bruins.

Henri (Pocket Rocket) Richard and Don Marshall scored two goals each and the others were counted by Maurice (Rocket) Richard and Claude Provost.

It was a romp for Montreal all the way, the goal-happy Canadiens blasting a total of 53 shots at Detroit goalie Terry Sawchuk. Plante handled 20 shots.

Wings in a last-place tie with Toronto Leafs.

HEAVY ASSAULT

At Boston, Harris and Tod Sloan broke away with the puck from a heavy Bruins assault on the Toronto nets. Harris passed to Sloan who gave it back at the crease where Harris merely flicked it in as he skated by.

That made it 4-2 at 16:09.

Then Boston and Toronto traded final goals as Bronco Horvath tallied his second at 17:10 and Brian Cullen notched an unassisted goal at 18:30.

Sloan had a goal and two assists for the night.

With the score tied 1-1, Toronto went ahead to stay with two second period goals in 13 seconds.

Sloan scored on a breakaway from centre ice at 6:03 of the middle session. At 6:16, George Armstrong scored on a 15-foot shot from in front.

Don McKenny got one of them back at 11:37 when he picked up a loose puck after Leo Labine's shot was blocked by defenceman Bob Baun. But it wasn't enough.

The Red Wings were never able to get a sustained attack going and their defence was pierced time and again, with the harassment Sawchuk coming manfully to the rescue.

The Wings were without defenceman Red Kelly and forward Lorne Ferguson, both laid up with injuries. Dennis Olson, called up from Edmonton Flyers of the Western Hockey League, was used by the Wings but was of little help.

Canadiens' win, before a crowd of 14,268, lifted them back into a tie with New York Rangers for first place. The Montrealers still have two games in hand over the Rangers.

The loss by Detroit left the Red

BIG WINNER

King of the San Diego Open, Arnold Palmer gets some flattering homage from movie starlet Dolores Michaels, queen of the Open. Palmer also received first prize money of \$2,800 for his 271 score over 72 holes, 17 under par. In winning his fourth tournament this year, the former U.S. national Open champion had to battle all the way with Toronto's Al Balding who finished second, only one stroke behind Palmer.

STAMPFL'S WORK LAUDED

AAU Seeks Service Of Austrian Coach

By STAN McCABE
Canadian Press Staff Writer

WINNIPEG (CP)—The track and field committee of the Amateur Athletic Union of Canada wants famed coach Franz Stampfl to return to Canada next year because of the "inspirational" work he did this year with Canadian runners.

Stampfl, the 43-year-old Austrian who coached four-minute mile Roger Bannister, came to Canada last summer to instruct athletes under the Canadian Olympic Training Program.

The track and field committee, in session during the annual AAU meeting here, was asked by sports director George Duthie of the Canadian National Exhibition if it wanted him back.

WOULD LIKE TO STAY

Duthie said he thought Stampfl would like to come to Canada to stay permanently if he received an invitation from "the proper source."

The committee agreed that it would like to have him return. However, the action still must be approved by the AAU as a whole and by COTF officials.

Also at Duthie's urging, the committee agreed that the Canadian Legion, which foots the bills for the clinic, should be advised that the AAU would like the arrangement to continue indefinitely.

The CNE sports director also referred to confusion over the length of the track at the CNE. He said the CNE would like to see more track meets there and more marks set, and was willing to have the track resurveyed if the AAU would confirm the survey was correct.

The Canadian Legion would like the name of the COTF changed to include the Legion name and get away from the Olympic tag since it was not solely concerned with the Olympics, he said.

A controversial issue facing the delegates at the meeting went into second day was the site of the 1958 track and field trials for the British Empire Games. British Columbia, Quebec and Saskatchewan all have applied for them.

NOT FOR B.C.?

The British Columbia branch has asked for all big trials because it is the province's centennial year but the general feeling among delegates seemed to be that it won't get them all.

Committees started consideration Thursday of a proposal that a firm connected with the dairy industry help pay the cost of a nation-wide track and field program run by the AAU. The identity of the company was not disclosed.

Earlier, the report of president Ken McKenzie of Vancouver, absent due to illness, was read to the meeting. He said some assistance should be forthcoming from the Canadian government to help sports.

DEATHS

BLACKWELL — Passed away in the Penticton Hospital, November 7, 1957, Mrs. Sarah Eleanor Blackwell, aged 75 years, formerly of 702 Penticton Ave. Besides her husband, John Ernest, she is survived by one daughter, Mrs. Phyllis McGraw, Dayton, Ohio; four sons, Ivan, Melfort, Sask.; Allan, Santa Rosa, Cal.; Ernest, Moose Jaw, Sask.; Gordon, Penticton and five grandchildren; three brothers: Richard Hawes, Melfort, Sask.; Fred Hawes, Alberni, B.C.; Alfred Hawes, Tisdale, Sask. Funeral services for the late Mrs. Blackwell will be conducted from the Church of the Nazarene, Monday, November 11th at 2 p.m. Reverend J. R. Spittal officiating. Interment Lakeview Cemetery. No flowers by request. Roseclawn Funeral Home in charge of arrangements.

IN MEMORIAM

HOLLIDAY — In loving memory of our dear husband and father, who passed away November 8th, 1952.
"Without farewell he fell asleep perhaps it's just as well,
We never could have said goodbye
To one we loved so well."
— Ever remembered by his loving wife Flossie and the family. Perhaps it's just as well.

CARDS OF THANKS

WE wish to express our sincere thanks to the doctors and nurses, friends and relatives for their kindnesses, cards and floral tributes. Also special thanks to Bob Fraser and Alex Kaiser. — Mrs. Ruby Baker & Mrs. R. Kerr.

Mail Handling Research Plan Under Study

OTTAWA — (CP) — Postmaster-General William Hamilton announces that Canada, the United States and Britain this month will launch a joint long-term research program to improve machinery and equipment for handling mail.

He told the Commons the project will start in Washington on Tuesday with meetings lasting two weeks. Five senior officials of the post office department, headed by G. A. Boyle, deputy minister, will make up the Canadian delegation.

HOW TO DEAL WITH WASPS

Ingenuity is called for in dealing with a wasp's nest. One man who was plagued by wasps making their home under the roof of his house resourcefully pulled a transparent polythene bag over his head, put another bag on each hand (secured with rubber bands at the wrists) and removed the nest in perfect safety!

THE KING TEASES THE QUEEN

"Jester", a two-year-old Siamese named 1957 king of National Cat Week, in New York, gets friendly with Steverino, the greyhound who stars on TV. Steverino recently was honored as the 1957 queen of the National Dog Week.

Scientists report that the average shower bath adds between a quarter and a half pound of water vapor to the air in a bathroom and a tub bath contributes about a quarter as much. That is why the walls and ceilings of a bathroom should be painted with high quality enamel which resists moisture.

New Road, Rail Links Proposed

SEATTLE (AP) — New road-rail links to open up huge, rich wilderness areas of Alaska and Canada are under consideration by the Alaska International Rail and Highway Commission after a two-day meeting here.

The 13 commission members expect to tour the region next spring to gain first-hand information.

Heading the list of projects the commission may undertake is a highway through British Columbia and the Yukon Territory into Alaska's heartland.

Next, the commission plans to explore the economic feasibility of a railroad to the north.

One of the principal speakers at the commission session was B. Frank Heintzleman, former governor of Alaska who appeared as a representative of the Pacific Northwest Trade Association.

Heintzleman made six recommendations: surfacing and improving the present Alaska highway; paving the 160-mile corridor between Haines and the Alaskan highway; providing access roads from and new highway into mineral-rich sections; co-ordinating new road-rail links with water routes; extending to Canada the right to move its goods to tide-water over American soil; exploring the possibility of a single hydro-electric system on a dozen or more dam sites from southern British Columbia through the

Yukon to interior Alaska.

people compete in the oil business

Did you know there are more than 10,000 people engaged in the search for oil in Canada? We know it, because we run into plenty of them each time we try to lease promising oil lands.

Did you know there are hundreds of skilled chemists and engineers in Canada's 42 refineries? We know it, because our own technical people have to work hard to stay ahead of the others in producing better products at lower cost.

QUIZ

You are the dealer, neither side vulnerable. What do you bid with each of the following four hands?

1. ♠A ♠Q74 ♠KQ82 ♠KQJ5
2. ♠5 ♠KQJ874 ♠7 ♠AJ82
3. ♠KJ874 ♠AKQJ5 ♠9 ♠Q3
4. ♠AKQJ ♠AQ8 ♠AKQ9 ♠KJ4

1. One diamond. The general rule where distribution is 4-4-1-1, to open the bidding with the suit just beneath the singleton. It is sometimes happens, though, that the adjacent suit below the singleton does not qualify as a bid-able suit because of its high card weakness. When this occurs, the suit is bypassed, and the next suit in order below the singleton is selected for the opening bid.

2. Four hearts. An important principle is involved in choosing to open the bidding with four hearts. The prime purpose of the high-level opening bid is to hamper the opponents in their exchange of information in case it turns out that they have the balance of strength. It is not so easy for the opponents to get together in their best suit and in the right level when they have to start activities by bidding for ten or eleven tricks.

The opening four-bid denies a defensive strength usually associated with an opening bid of one in a suit. It merely states that with the suit named as trump the bidder has seven or eight winning tricks.

3. One spade. Many players tend to bid suits according to their strength rather than their length. This is wrong. The general principle is that with two five-card suits the higher ranking suit is bid first. There is no reason to vary from this rule in the present case.

The goal is for the partnership to choose as trump the suit where they have the greatest number. To bid hearts ahead of spades may easily lead partner to believe the opener has greater length in hearts, and may therefore result in the wrong final contract.

4. Three notrump. This is easily the most effective opening bid that can be made. The opening three notrump bid shows 25 to 27 high card points, strength in all suits, and notrump distribution, usually 4-3-3-3 or 4-4-3-2, sometimes 5-3-3-2.

Thus, in one motion, a graphic picture is drawn of the hand held. The rest is up to partner. He may pass, or go to game in a suit, or go on to a slam.

An opening two diamond bid would be incorrect. The chief objection is that partner's likely two notrump response would result in his becoming declarer at three notrump. It is much better to have the strong hand concealed and the tenaces led up to.

Four Horoscope

THE STARS SAY — By ESTRELLITA

FOR TOMORROW

Do not let extravagant tendencies get the better of you now. Temper even the most generous of impulses with practicality. Try to complete unfinished tasks, and postpone new moves and changes.

FOR THE BIRTHDAY

If tomorrow is your birthday, the year ahead promises much in the way of rewarding achievement where job matters are concerned, and a definite improvement in your financial status is indicated as of mid-1958. But to benefit by these good influences, you will have to do your part, of course. Set your sights on ambitious goals, and get going—NOW!

Artistic and scientific pursuits will be favored during January, February and March and, between June and September, the aspects will be propitious for romance and unusual social activities. You may experience some anxiety during October but, since this may be the result of fatigue, try to slow down. You will have

no real cause for worry, so relax. Avoid extravagance during the next two months.

A child born on this day will be aggressive, self-confident and endowed with good executive ability.

RUSSIA CLAIMS TRIPS TO MOON SOON POSSIBLE

For centuries, man has imagined trips to the moon, Venus and Mars, but only recently has science considered these space jaunts as fact, not fantasy. This scene from a movie shows life on the moon. Soviet scientists claim they will

soon be able to send rockets from the earth to the moon, a distance of 245,000 miles. The first rockets will be manned by robots to make observations and report back by television.

HOW'S WEATHER UP THERE, LAIKA?

Keeping a sad eye peeled for "Laika", Russia's canine heroine now circling the globe in Sputnik II, is Jim Bassett, who is parked atop a penthouse in New York, equipped with telescope and radio set. Dog lovers around the world share Jim's concern.

Walk-out a Bid To Force Gov't Pilot Payment

OTTAWA — (CP) — Transport Minister Hees said Thursday a walkout of St. Lawrence River pilots appears to be an attempt by them to compel the government to establish a system requiring pilotage payments by all ships whether they use pilots or not.

He said the strike appears to violate provisions under the Canada Shipping Act regulating the pilots' operations and that it renders the strikers "liable to the penalties provided".

The pilots' committee has been summoned to Ottawa "to explain its position forthwith," he added. Immediate consultations also were planned with representatives of the deep-sea and Great Lakes shipping companies whose vessels may be involved.

Mr. Hees was commenting in the Commons on a strike by 52 pilots on the Montreal-Kingston, Ont., run. The pilots, members of the St. Lawrence-Kingston-Ottawa Pilots' Corporation, left their jobs Monday, saying they were overworked and lacked job security.

CANADIAN MINORITY RACE

Negro Population Survey Conducted

By ARCH MACKENZIE, Canadian Press Staff Writer
MONTREAL (CP) — As racial discord flares at Little Rock, Ark., a Montreal labor official conducted a coincidentally-timed survey among some of Canada's oldest Negro communities.

Little Rock is not likely in this country, Sid Blum said on returning from New Brunswick and Nova Scotia. A main reason, he concludes, is that Canada's population of about 24,000 Negroes is too small.

Discrimination against them exists in varying degree and most Canadians are unaware of it, he said in an interview. Housing, employment and such commercial services as barbering and restaurants are the chief areas.

DIRECTS PROGRAM

Mr. Blum, 32, is director of the human rights committee of the Canadian Labor Congress and director of the Jewish labor committee.

Born in New York and a veteran of Second World War United States Army action he came to Canada 10 years ago. He graduated from the University of Toronto with a master's degree in sociology.

He spent 14 days visiting Halifax, Truro, New Glasgow and risk

hardship outside. Most, he said, are preconditioned to behavior least likely to rub against discrimination bounds.

In most Nova Scotia centres visited, Negroes lived exclusively apart or in poorer sections shared with whites to varying degrees. Few moved. His reports indicated that real estate agents either discouraged Negro business or re-

jected it. Employment discrimination struck chiefly in the white-collar zone, Mr. Blum was told. Most of Nova Scotia's Negroes are laborers or low-skilled employees in steel mills, railways or dockyards. Some farmed.

Mr. Blum calls the Negro a "obvious discrimination." Automatically stamped by his color, he faces barriers far more readily raised in his case than they would be in discrimination based on religious, cultural or non-colored racial grounds.

ACCEPT BARRIERS

Most Negroes have come to accept these barriers, living insularly in a community where the church generally is the focal point and the residents are reluctant to risk unnecessary humiliation or

ATTENTION HOUSEHOLDERS

YOUR SUPPORT IS NEEDED TO KEEP HOCKEY ALIVE IN PENTICTON

GIVE THOSE UNWANTED ARTICLES to the VEES AUCTION

They Will Be "Auctioned Off" Nov. 16th To Raise Much Needed Funds

THE SUCCESS OF THIS AUCTION DEPENDS ON YOU!

In your attic or in your basement there are discarded items which are of value to us. The Executive ask you to donate these items to the Hockey Club. The necessity of this Auction was caused by the club's losses in previous years. In order that we may recuperate our losses and place the Vees on a sound financial basis we must raise this money through our own endeavors. Any donation large or small would be greatly appreciated by the Vees.

DIG THEM UP — WE NEED THEM NOW!

DON'T PUT OFF UNTIL TOMORROW WHAT YOU CAN DO FOR THE VEES TODAY!

We Have: • CARS • LAMPS • TIRES • TEA SETS
• PICTURES • CHAIN SAWS • LAWNMOWERS

WHAT HAVE YOU?

EVERYTHING ACCEPTABLE
(Except Used Clothing)
